# Why Singapore?

## See a World of Opportunities

Singapore, an economic powerhouse, actively encourages start-ups, entrepreneurs or anybody who wants to climb the career ladder with innovative ideas to improve the future.

The country is ranked in the international top tiers, from being one of the world's most competitive economies, to the safest country for investment<sup>1</sup>, and a smart city with the best transport system<sup>2</sup> in the world.

It's no surprise that compared with other Asian hubs, Singapore is home to the largest number of headquarter jobs from global Fortune 500 companies, according to studies by AON and KPMG.<sup>3</sup>

## Out and About

Getting around Singapore is easy – and cheap. With a clean, frequent and reliable light railway system, matched by an equally impressive bus service throughout the island, whizzing from home to college, shops and numerous attractions is a breeze. Taxis and private hires won't break the bank either. And the famed Changi Airport offers all the benefits of a global travel hub whenever you need to spread your wings.

## An Easy Place to Live

Singapore rates highly on the liveability scale<sup>4</sup> thanks to its good education, variety of good jobs, thriving economy, quality healthcare and stable way of life. Not least, it enjoys a reputation as one of the world's safest cities.<sup>5</sup>

## After Hours

A true education means making the most of every opportunity. So after studying for the day, there are countless new experiences to try. Whether your idea of chilling is a stroll in one of the island's numerous green spaces, getting the adrenaline pumping with your

favourite sport, taking in some art and culture – or indulging in the national pastimes of shopping and eating hearty local hawker centre food for a few dollars (although there's cuisine from all over the world right up to Michelin standard in this foodies' paradise) – Singapore has them all.

# The Vision to See Ahead to a Changing World

## Who We Are

PSB Academy, known today as 'The Future Academy' has produced over 200,000 learners throughout our distinguished history. We host over 13,000 students today from more than 50 nationalities with our certificate, diploma, degree, and short courses.

## From Humble Beginnings to Award-Winning Institute

Established in 1964, we were once part of Singapore's Productivity and Standards Board to upgrade the knowledge and skills of Singapore's workforce.

From there we have developed into one of Singapore's leading private educational institutions with an international network of colleges throughout Asia and exciting opportunities to study in universities from Australia, New Zealand, the UK, and US.

Throughout the years we have won a host of accolades and awards. In 2021, the Academy was conferred our third National Business Award in Education by Singapore Business Review and earned "Best Educational Institute - Singapore" by APAC Insider in 2019. One thing

remains the same: the desire to prepare our students for the challenges and opportunities of the future. We'll equip you with the knowledge and skills you need to make your mark in today's rich and invigorating jobs market.

## More than Just Books

Acing your assignments and exams will be your main goal. But it shouldn't be your only one. In today's complex business world you'll need to know about global cultures and markets. Demonstrate good social skills. Network successfully. These are all aspects of working life that should go hand in hand with your academic results and we will provide the connections to ensure that you're well prepared for work on day one of your new career.

## Engaging with Industry

While you're with us, you'll have access to a host of resources, plus workshops and career fairs. You'll also be able to consult with our industry partners, to prepare you for the workforce, so you'll be learning the skills that the market needs. In 2021, almost eight in 10 of our graduates were employed within six months after examinations.<sup>6</sup>

## Learning at Leisure

At PSB Academy, you can have fun broadening your experience through our numerous student clubs and activities plus create a positive impact in the community. And, along the way, make some lifelong friends!

# Where Do You See Your Place in the World?

Our multi-award-winning PSB Academy provides courses from foundation level to doctorates, with qualifications awarded both by the Academy and our partner universities and other awarding bodies.

The School of Foundation Studies offers programmes that are designed to get young students started on their education journey in PSB Academy. These programmes will provide students with the knowledge as well as interpersonal skills, linguistic skills and general competence upon which to prepare the students for future education.

From accounting and finance, business, logistics and supply chain management for those with a head for figures to marketing, media communications, tourism and hospitality for those with social or linguistic leanings, we have a range of industry-focused certificates, diplomas and Bachelor's degrees.

STEM jobs are in demand! And they are driving the massive advances that are changing the way we live. Our courses will equip you with the academic and practical skills to make you industry-ready once you've graduated. Courses range from construction management, mechanical and electrical engineering, through to information technology, blockchain and cyber security, and environmental and occupational health and safety.

Could the next life-saving discovery be yours? Our courses include biomedical, pharmaceutical and molecular science plus sport and exercise sciences where studying takes place in our chemistry, life sciences and sport science laboratories.

Our City Campus provides postgraduate education for working professionals. Together with globally leading universities and business schools, we offer a selection of MBAs, Master's and Doctoral Degrees in a conducive learning environment.

Our e-learning certificate and diploma courses help chart the path to a degree from our university partners. You can study anywhere, anytime and at your own pace.

# Our City Campus

Our City Campus at Marina Square spans over 130,000 square feet, featuring lecture theatres, classrooms with writable walls, common study areas that encourage social learning, active student participation and interactions with lecturers. Both campuses are accessed by SmartGantry, a system which enhances campus security and safety for our learning community, with features such as biometric (facial recognition) identification and attendance-taking. These also mean physical touchpoints are reduced for public health safety.

## Radio and TV Studios

Students in media and communication programmes get to enjoy working with professional equipment under the supervision of lecturers with industry experience. The purposeful design of the studios and integration into our communication programme curriculum provide practical preparation for our students' future careers.

## Main Wing

### Lecture Theatres

Acoustically balanced with adjustable lighting and AV equipment, our lecture theatres make for conducive learning environments. Spaces range from a more intimate auditorium for 150 students, to a larger conference setting for over 350. In line with our campuses' universal design, our lecture theatres are wheelchair-accessible.

### Seminar Rooms

Students in MBA and other postgraduate programmes will be able to take advantage of the curved seating for seminar-style discussions. Writable glass panels can facilitate breakout discussions, while wireless display technology helps break down the traditional boundaries of the physical classroom.

### Classrooms

Students benefit from 31 classrooms and a sandbox iteration for experimental teaching methods. Our classrooms and common spaces feature writable walls that encourage spontaneous discussions.

## Computer Labs

We are an authorised Autodesk Training Centre (ATC) to provide training services to the public and students to help them enhance their skills with Autodesk® software and integrate professional engineering drawing software into design process.

We also offer educational training in other professional engineering software in collaboration with network security specialists EC-Council. PSB Academy also focuses on training experts for the cyber security field.

## Engineering Labs

Some engineering equipment featured includes:

- Electro-magnetic and electrical machine trainers
- Photovoltaics and wind power plant training systems
- 3D printers
- Tensile machine and hardness tester
- Fluid mechanics equipment
- Rotary servo workstations
- Microcontrollers/embedded systems
- Digital storage oscilloscopes and spectrum analysers

## Robotics Labs

Our purpose-built robotics lab incorporates a variety of prototypes, robots, and machines, including Turtlebot 3 Burgers, Arduino Braccio robotic arms, Raspberry Pi 4s, various drones and more.

## Chemistry and Life Sciences Labs

Our chemistry and life science laboratories offer students practical experience at using commonly-used equipment in industry practice. These labs have been designed on the back of more than 10 years of experience in delivering top quality life science education.

## Sports Science Labs

Our sport science lab is fitted with 3D Motion Analysis video cameras that are used to capture movement skills. Through these videos, students will then perform biomechanical analysis to provide performance feedback as well as identify potential injuries.

# Student Journey

## Accommodation

## Campus Life

As a student at PSB Academy, your life is never dull. In your time with us, you will be able to discover your passion and connect with peers through our student clubs and international communities. What's more, you get to hone your leadership skills as a student leader and gain real-world experience through workshops and company visits organised by the Student Success Office.

### **Break The Ice (BTI)**

Organised for new certificate level students to get to know one another, Break The Ice helps you to effortlessly integrate.

### **Connect+**

Meant for diploma level students, Connect+ helps nurture positive mindsets among our diploma students. This fun-filled platform lets you build lasting memories with your peers through games, art, and cultural exchanges.

### **Global Awareness and Networking (GNet)**

GNet focuses on allowing undergraduates to develop an appreciation for the intricate skill of networking, which will be an asset to keep in your back pocket when you eventually take on the challenges of tomorrow.

### **Campus Club Fair**

Thrice a year, student leaders from our various student clubs recruit new members and promote upcoming events.

## Career Services

Here at PSB Academy, we strongly encourage our students to go through the journey of career preparation from the first day they step into school. To help you with this, we have divided the journey into three checkpoints for you to follow up and track your progress throughout.

### #SetOut

By taking arguably the hardest, yet most important first step out, you will be able to learn much more about yourself beyond the regular curriculum. By joining events such as our industry visits, you will be able to experience first-hand how a company functions, network with our industry partners and explore potential career opportunities.

### #StepUp

Having experienced what to expect in the corporate world, you are encouraged to explore beyond your comfort zone by participating in our career workshops, industry-specific career talks, career conferences and even engaging with an industry mentor for their expert guidance. This will help set you up for your job search way before your graduation.

### #SuitUp

Your final checkpoint will be the day when you are ready to suit up and enter the corporate world! At PSB Academy's annual career fair, graduating students will be given a chance to interact with employers from all over Singapore, be at their best and land themselves a job opportunity.

# Testimonials

“I decided to pursue my MBA at PSB Academy because of the multiple accredited programmes it offers from world-renowned universities.”

*Vety Meng, Cambodia, Master of Business Administration,  
The University of Newcastle, Australia, Class of 2020*

“In PSB Academy, I not only gained professional knowledge but also improved my soft skills.”

*Xu Xiao Mei, China,  
Bachelor of Commerce,  
The University of Newcastle,  
Australia, Class of 2019*

“Choosing to study at PSB Academy was because the school is in Singapore, which is closer to my home country, Indonesia. Coventry University is also a reputable UK university that offered engineering degrees.”

*Samantha Sutanto, Indonesia,  
Bachelor of Electrical and  
Electronic Engineering, Coventry  
University, Class of 2020*

“The PSB Academy campus has an excellent laboratory environment with some of the industry’s most commonly used equipment. I’ve attended practical classes where I would learn about molecular genetics, microbiology, organ systems, pharmacy, etc.”

*Byun Hyeryung, Korea, Bachelor of Biomedical Science, La Trobe University, Class of 2022*

“PSB Academy is a well-recognised institute with good facilities, brilliant lecturers and a student-friendly environment. Moreover, I like the student social groups and societies, as well as the student navigator and student welfare programmes.”

*Sanoj Withanage, Sri Lanka, Bachelor of Science (Cyber Security), Edith Cowan University, Class of 2022*

“The Master of Analytics at Massey University offers me the choice of a marketing pathway, which allows me to not only learn the concepts of data analytics but also its application in the field I’m interested in.”

*Pham Hoài An, Vietnam, Master of Analytics, Massey University, Class of 2020*

“PSB Academy is a school that provides more than just studies; it has a diverse group of student bodies where I can take part and experience campus life.”

*Shafeek Ahamed, India, Bachelor of Science with Honours in Ethical Hacking and Cybersecurity, Coventry University, Class of 2022*

“The lecturers have taught me to learn and follow scientific facts from the books, and at the same time to be open to exploring new possibilities through the research process and experiments.”

*Bryan Yong, Malaysia, Bachelor of Science Sport and Exercise Science, Edinburgh Napier University, Class of 2016*

“The first time I set foot on PSB Academy’s City campus, the unique interior design of the campus gave me a good feeling that I found what I was looking for.”

*Pamela Perfecto, Philippines, Bachelor of Business, The University of Newcastle, Australia, Class of 2022*

“The course was very comprehensive. It even helped me develop other facets such as leadership and tenacity. The tutors and lecturers would also always go the extra mile to make sure that we understood what was being taught.”

*Kaung Htet Wint Kyu, Myanmar, Bachelor of Information Technology, The University of Newcastle, Australia, Class of 2017*
